Day 6 Cowra – Young

Today we depart for Young and see the beautiful landra Castle, landra Castle was established by George Henry Greene from 1878-1911, and represents a rare example of complete feudal-like estate, modelled on the English Manor System. It has no equal in New South Wales or Australia. The nearby village of Greenthorpe was built by Greene for his tenants. Greene pioneered share farming in NSW in 1892, and soon after the turn of the century, the landra estate produced the largest yield of wheat for that time - 100,000 bags. We then travel to Poppa's Fudge Factory (lunch is available at own expense). After lunch we visit Young Chinese Gardens and the Lambing Flat Museum. A veritable treasure trove of relics from nearly 200 years of European settlement in Young is hiding away at the Lambing Flat Folk Museum. There is an excellent display detailing both the gold mining history of Young and the Chinese presence in the town at that time. Most notably, the collection tells the dark history of the Lambing Flat Riots of the 1860s, and is complete with significant memorabilia from that event, including the infamous flag around which the dissenters rallied, reading, "Roll Up – No Chinese", which is on display in a glass cabinet in the centre of the room. There are also personal items of Chinese migrants here; beautiful Chinese vases, cooking equipment and clothing, to name a few.

Day 7 Cowra – Sydney

After breakfast we say goodbye to Cowra and make our way home to Sydney.
